tolino vision 3 HD

eReading perfection in its most beautiful form — innovative functions for heavy readers with high expectations.

- > New 300 ppi E Ink Carta display for pin-sharp typography
- > Water Protection by HZO — perfectly protected against moisture
- > tap2flip for innovative page-turning with one hand
- > Integrated lighting so you can read in the dark
- > Compact and practical design with flat surface and touchscreen
- > Useful functions: font settings, dictionary, notes and more
- > Up to 7 weeks' battery life

New 300 ppi E Ink Carta display—pin-sharp display even of small fonts

Thanks to its next-generation display, the tolino vision 3 HD offers you an even higher resolution and higher contrast screen. Gentle to your eyes and glare-free even in bright sunlight, the 300 ppi E Ink Carta display on the new tolino vision 3 HD delivers perfect reading pleasure. Pin-sharp, paper-like display of even small fonts, combined with the benefits of digital reading! A wide range of useful functions make your every reading break easier. And when it gets dark: simply turn on the integrated reading light, set it to your preferred brightness, and ... keep reading.

Perfectly protected against water

The tolino vision 3 HD is ready for anything and optimally protected against water damage thanks to nano-coating. This helpful new waterproofing forgives even quick dips into water with your eReader, so you can read safely and comfortably in the bath or on the beach. The new tolino vision 3 HD features Water Protection by HZO. That means you can immerse your tolino into fresh water for up to 30 minutes at a depth of 1 meter — and of course you can go right on reading afterwards! If your tolino vision 3 HD accidentally comes into contact with other fluids, simply rinse it off with tap water and let it dry for 48 hours.

Turn pages easily with one hand

The new tap2flip functionality of the tolino vision 3 HD is a unique innovation for relaxed reading with just one hand. It lets you turn pages simply by lightly tapping the back of the device. This means you can hold your eReader comfortably in one hand and easily turn pages. Perfect for when you're traveling and have only one hand free, or for reading lying down! Of course you can also still use the capacitive touchscreen of your tolino vision 3 HD to turn pages.

Up to 7 weeks' battery life

Thanks to up to seven weeks' battery life you'd best make a note of where you stored your charger — you won't be using it much! The tolino vision 3 HD consumes hardly any power as you read, and is a reliable companion on your journey into the world of books. Even on holiday there's no need to worry about finding a power outlet — and you'll never have to be without the practical reading functions of your tolino vision 3 HD.

Open system for complete freedom of choice—buy eBooks wherever you like

tolino believes in openness and in offering a product that is customer-friendly — now and down the line. That's why the tolino vision 3 HD supports the standard eBook format ePUB (with and without DRM) and allows you complete freedom to choose where you buy your eBooks. You can conveniently load existing ePUB and PDF eBooks and TXT files onto your tolino vision 3 HD and read them on it. The easy reading experience: simple, practical and versatile with tolino.

Over 2 million eBooks

Over 2 million eBooks are waiting to be read and are available from the eBook shops of the tolino booksellers. The tolino vision 3 HD offers plenty of space for your new and older reading treasures — thanks to 4 GB of storage, over 2 GB of which are available for your books, there's room for up to 2,000 eBooks on your tolino eReader, where you can read them any time.

Download eBooks directly via WLAN

Download hotly anticipated new releases, outstanding best-sellers or current eBook bargains to your eReader in seconds! Simply connect your tolino vision 3 HD to your WLAN and browse the integrated bookshop for new eBooks. Free access to Telekom HotSpots across Germany (after registering with a bookseller customer account free of charge) lets you quickly connect to the Internet even when you're on the go.
